

3D WALL SHEET

Product Features

Random Mix | Free Match | Light & Changeable | Unlimited Creativity

Zero - formaldehyde
It's perfectly realized and certified to ZERO formaldehyde emissions by SGS.

Water and Moisture proof
Because of the excellent Pu leather on the back, it prevents the water and moisture to go through.

Fire retardant
The fire retardant performance reaches B in EN13501 and GB8624, was certified by SGS. It also produces very low smoke, and it is the taste of bamboo charcoal after burning, not irritating.

Sound proof
Because of the sharp 3D inclined block face and the high density foam inside, the sound will be faded and consumed gradually during the rebound between inclined faces.

Soft and high rebound
The panel is composed of high density foam. Its high rebound means not ruffle, never deform. It has excellent effect of collision avoidance.

Easy installation
No board on the wall, and no nail during installation, just use silicon to stick directly, free easy and fast.

Secondary use
After period of time, if the panels must be removed, they can be torn off and installed on the other wall.

Safety
Because of the light and soft, even if the wall paint falls off, the panels won'thurt people.

Bend easily
The panel embodies the professional wisdom when there is the circle or square column or the corner.

Acoustic absorption
The holes in the thick foam are to absorb the sound around.
